Mrs. Catherine Marty Dead.

Mrs. Catherine Marty, aged 80 years, died at her home at Castroville Tuesday evening at 7 o'clock. She is survived by two daughters, Mrs. Mary Christilles of Lacoste and Miss Emma Marty of Castroville, and two sons, Chas. Marty of San Antonio and Sebastian Marty of Castroville. Mrs. Marty was buried Thursday morning at 9 o'clock in St. Louis Cemetery.

Ernest Pichot.

News of the death of Ernest Pichot, the 15 year old son of Mr. and Mrs. Albert Pichot, was received here Tuesday afternoon. According to information the young man, after school, went by the depot where workmen had just finished filling a gasoline storage tank, climbed up the ladder, bent over and looked into the manhole, and must have been overcome by the gasoline fumes, as he fell forward with his face in the gasoline. A man nearby hearing the splash, rushed up the ladder, secured the boy and returned to the ground and a physician called, but after a gasp or two, the boy was pronounced dead, death undoubtedly resulting from the gasoline fumes.

Ernest was born in Medina county and spent the greater part of his life here, moving with his parents to Uvalde about one and a half years ago. Two sisters, Mrs. Frank Schweers and Mrs. Robert Koch, and one brother, Adolph Pichot, reside here.

The bereaved parents and other relatives have the unbounded sympathy of our people in their terrible bereavement.

A New Store.

Olswanger has been opened in the Frederichs building, east of the First National Bank, and a full line of dry goods, clothing, hats, boots, shoes, etc. is already in stock, and new goods arriving daily and it promises to be one of the leading establishments of the town. Mr. Olswanger is well known to the trading public having been connected with the Hartman store, has a large circle of friends and we predict for him a prosperous business career.

O. E. S. Reception

Mrs. Minnie Eyster, Assistant Deputy Grand Matron, O. E. S., of Devine, was here Tuesday to visit the local Chapter. After the initiation of a new member, a reception was held in honor of the visiting lady. Delicious cream and cake was served to about sixty members. The nearness of St. Patrick's Day was evidenced by shamrocks in the decorations and by the "wearing of the green."

Business Change.

Joe Huesser has purchased the soft drink and restaurant business from Fritz Frederichs and in future will conduct the business in his own name. Joe has long been connected with The Favorite while under the proprietorship of Mr. Frederichs, has a host of friends, and we predict for him a prosperous business career now that he has launched out under his own name.

Mr. and Mrs. W. O. Rothe returned Friday from Houston, Texas, where they attended the 44th annual convention of the cattle Raisers Association of Texas. They report having a splendid time. Besides the social entertainment, they heard many fine speeches by noted orators, such as W. W. Turney, president of the association, Ed. C. Lasater, Judge William Pindexter, L. H. D. Weld of Swift & Co., and Roy Miller of Corpus Christi, representing The Rural Land Owners Association. San Antonio was chosen for the convention city in 1921.

Sergeant Maxwell and Corporal Brown of the Recruiting Service, who opened a station here at the Richter Hotel, will leave on the evening train today after a two weeks' stay. Sergeant Maxwell will go to Houston to report at headquarters, Corporal Brown returns to his station in San Antonio. The officers made many friends here, their mission, however, was not a successful one and they suggest that a bonus should be offered to recruits instead of the expensive methods now employed.

F. A. Brown is in a hospital in San Antonio where he underwent an operation for appendicitis last Saturday. Last reports are to the effect that he is progressing toward his normal health satisfactorily.

Let's Go "Over The Top" Together.

The Women's Auxiliary of the 36th Division, organized during the recent World War, a permanent, chartered organization, desiring to perpetuate and preserve to posterity the imperishable names and glorious deeds of the 36th division composed of Texas and Oklahoma men, invite all mothers, wives and sisters who are eligible to become members of this auxiliary that they may assist in this and any further patriotic work we may undertake. Information and application papers for membership will be sent upon request.

We ask the assistance of all patriotic citizens that this work may be made commensurate with its worthiness.

Some U. S. sailors are shown here making plain and fancy stovepipes at a Navy training school.

The gentle art of tinsmithing as taught in the U. S. Navy schools fits a man for a rating aboard a man of war. There his work is confined to his specialty and his ability should increase throughout his enlistment.

There is no excuse for a man not becoming an expert by the end of his third or fourth year. He may then return to civil life entirely qualified in a profitable trade or continue in the service at the advanced pay allowed for re-enlistments.

Besides the tinsmith school there are schools for every other trade used in the Navy. Carpenters, blacksmiths, plumbers, electricians, bakers, pharmacists, and a dozen other specialties are taught to the young recruits. If a young man has a hobby and wishes to perfect himself in some trade that he is fitted for, he may receive expert training by joining the Navy and applying for entrance to some trade school.

Helps Sick Women

Cardui, the woman's tonic, helped Mrs. William Eversole, of Hazel Patch, Ky. Read what she writes: "I had a general breaking-down of my health. I was in bed for weeks, unable to get up. I had such a weakness and dizziness, . . . and the pains were very severe. A friend told me I had tried everything else, why not Cardui? . . . I did, and soon saw it was helping me . . . After 12 bottles, I am strong and well."

For Colds, Catarrh or Influenza

Do you feel weak and unequal to the work ahead of you? Do you still cough a little, or does your nose bother you? Are you pale? Is your blood thin and watery? Better put your body into shape. Build strong!

An old, reliable blood-maker and herbal tonic made from wild roots and barks, is Dr. Pierce's Golden Medical Discovery. This "nature remedy" comes in tablet or liquid form. It will build up your body and protect you from disease germs which lurk everywhere. One of the active ingredients of this temperance alterative and tonic is wild cherry bark with stillingia, which is so good for the lungs and for coughs; also Oregon grape root, blood root, stone root, Queen's root, all skillfully combined in the Medical Discovery. These roots have a direct action on the stomach, improving digestion and assimilation. These herbal extracts in the "Discovery" aid in blood-making and are best for scrofula. By improving the blood they fortify the body against an attack of grip or colds.

Catarrh should be treated, first, as a blood disease, with this alterative. Then, in addition, the nose should be washed daily with Dr. Sage's Catarrh Remedy.

Send 10c for trial pkg. of Medical Discovery Tablets or Catarrh Tablets to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

They are certain to prove beneficial.

"Songs of The Cattle Trail and Cow Camp."

The cowboy in love, the cowboy and the broncho, the cowboy in his daily life on the ranch, with its glorious freedom,—it is of these that the poet sings in this collection of verse. There is a robustness about it all that is very refreshing, a heartiness, a breeziness, that cannot fail to win even the most indifferent reader. It has been the purpose of Mr. John A. Lomax, the author and compiler, to bring together within the covers of one book all of the best cowboy verse by poets everywhere. The result is an extremely interesting and gratifying volume—of genuine and permanent appeal. The book is of especial interest to Texans for two reasons. In the first place, many of the poems had their origin in Texas. And in the second place, Mr. Lomax is a Texan. At present and for many years connected with our great State University at Austin. "The Old Mackenzie Trail," one of the longest poems in the book, is the product of his own pen.

No man who ever knew a real cowboy, a type now almost extinct, will want to be without this modest volume because of the memories it will awaken. No one, with pride of ancestry and of nativity, of a later generation knowing only of the barbed-wire enclosure and the stall-fed beef, will want to be without this volume which gives such an intimate insight into the lives of a type of men whose like the world will not see again. It can be had of the publishers, The Macmillan Company, 66 Fifth Avenue, New York, N. Y., for the very moderate price of \$1.75.

"Here's to the passing cowboy, the plowman's pioneer; His home, the boundless mesa, he of any man the peer; Around his wide sombrero was stretched the rattler's hide, His bride sporting conchos, his lasso at his side. All day he roamed the prairies, at night he with the stars, Kept vigil o'er thousands held by neither posts nor bars; With never a diversion in all the lone-some land, But cattle, cattle, cattle, and sun and sage and sand."

Then quaff with me a bumper of water, clear and pure, To the memory of the cowboy whose fame must e'er endure From the Llano Estacado to Dakota's distant sands, Where were herded countless thousands in the days of fenceless lands. Let us rear for him an altar in the Temple of the Brave, And weave of Texas grasses a garland for his grave; And offer him a querdon for the work that he has done With cattle, cattle, cattle and sage and sand and sun."

Ebert Government in Germany Overthrown.

The government of Friedrich Ebert, the socialist president of the German republic, was overthrown March 13th by a military coup d'etat. Dr. Wolfgang Kapp has temporarily assumed supreme direction of affairs and took the office of the chancellor, held by Gustav Bauer, himself. President Ebert fled from Berlin to other places south, where he continues to perform his administration, calling upon the people to rise in general strike as the only means of preventing the return of the kaiser.

Officials of the new government declare that it is not reactionary nor in favor of returning to monarchy, and that it promptly will carry out the terms of the peace treaty.

A number of American Senators expressed the opinion that the people have the right to choose a government as they please, and if the new government proves stable there would be nothing in the way to make a separate peace with such a new German government.

President Ebert has called the German National Assembly to a meeting in Stuttgart, Wuertemberg, on Tuesday, March 16th. So far the new government is only established in Prussia, the leading state of Germany.

Field Marshal von Hindenburg is reported to be favored by the new regime as president, but thus far he has remained in the back ground. The secrecy with which the revolution was planned and carried out has stunned the world. The Berlin garrisons, led by officers of the old school, were ready for the rising when the call came, and they withdrew as noiseless as they came after the old government was declared dissolved and that new elections would be held. Cannot Praise this Remedy too Highly

THE WAY ONE LADY FEELS AFTER SUFFERING TWO YEARS

Judging from her letter, the misery and wretchedness endured by Mrs. Charlie Taylor, R. F. D. No. 1, Box 144, Dillon, S. C., must have been terrible. No one, after reading her letter, can continue to doubt the great healing power of PE-RU-NA for troubles due to catarrh or catarrhal conditions in any part of the body. Her letter is an inspiration to every sick and suffering man or woman anywhere. Here it is: "I suffered two years with catarrh of the head, stomach and bowels. Tried two of the best doctors, who gave me up. I then took PE-RU-NA and can truthfully say I am well. When I began to use PE-RU-NA, I weighed one hundred pounds. My weight now is one hundred and fifty. I cannot praise PE-RU-NA too highly, for it was a Godsend to me. I got relief from the first half bottle and twelve bottles cured me. I advise all sufferers to take PE-RU-NA."

As an emergency remedy in the home, there is nothing quite the equal of this reliable, time-tested medicine, PE-RU-NA. Thousands place their sole dependence on it for coughs, colds, stomach and bowel trouble, constipation, rheumatism, pains in the back, side and loins and to prevent the grip and Spanish Flu. To keep the blood pure and maintain bodily strength and robustness, take PE-RU-NA. You can buy PE-RU-NA anywhere in either tablet or liquid form.

Ebert and his cabinet offered no armed resistance.

There are still American troops on the Rhine in Germany. While other allied troops are stationed there under the terms of the peace treaty the American soldiers are kept there still under the terms of the armistice.

There are hundreds of people who have been restored to health and happiness by the use of Chamberlain's Tablets. PASTORS OF TEXAS ENDORSE THE PLAN OF INTERCHURCH

EIGHT HUNDRED LEADING DIVINES
PLACE STAMP OF APPROVAL AT
DALLAS CONFERENCE BY UNANI-
MOUS ACTION ON FINDINGS OF
COMMITTEE REPORT. URGE THAT
ALL CHURCHES CO-OPERATE IN
GREAT CHRISTIAN MOVEMENT.

In a message of acknowledgment and
gratitude, the Interchurch World
Movement Committee reported
at the recent Pastors' Conference
of the Interchurch World Movement
held in Dallas issued a statement which was
unanimously adopted by the Conference.
This is the message to the church people
of Texas, as sent by more than eight
hundred active ministers, representing
nearly one denomination from fully two
hundred counties in the State of Texas.

We acknowledge with gratitude the
gracious leadings of Gods Providence in
all things. We record with reverent
hearts the profound conviction that this
movement is of God.

It has been a session of spiritual fel-
lowship when more than eight hun-
dred pastors of our Protestant Churches
of Texas have been sitting together for
three days thinking about and praying
about the common interests of the king-
dom of our common Lord and Master.
Our hearts have been moved with this
earnest of the fellowship that is to be
ours after the victory is won.

The Interchurch World Movement is
not a scheme for organic union but a
plan whereby the Protestant Churches of
America may co-operate in carrying on
their educational, missionary and benevo-
lent programs, at home and abroad. It
is first of all an effort to survey the needs
of the whole world and measure the
whole responsibility of the church. This
is the first time in history that the
Christian churches of North America
have ever attempted to study the con-
dition of the whole world. These sur-
veys stand before the Christian church
as the greatest challenge it has ever
faced since it received the great com-
mission, and they have revealed the
magnitude of the unfinished task and the
inadequacy of the efforts which the
church has as yet put forth.

It further proposes a program by which
the churches may unitedly attack their
common task. That task is fourfold:
To bring the whole church to a recog-
nition and acknowledgement of the stew-
ardship of life and possessions; to en-
large the scope and improve the methods
of this missionary education; to win souls,
the chief business of the church; and to
enlist the whole life of the church for
Christian service.

We approve the spirit and progress of
the movement since the World Survey
Conference was presented to us by the
Interchurch leaders at the Texas Pastors'
Conference. We feel that this is a pro-
gram in which all the churches of Christ
could co-operate and venture to hope
that the day may soon come when they
will be found in such fellowship of ser-
vice.

We recommend the approval of the
findings of the Atlantic City Conference.
We urge that our churches use their re-
spective ecclesiastical fellowships use
every influence to secure adequate sup-
port for the ministry and an adequate
provision for the care of the aged and in-
firm ministers and their dependents, and
we are persuaded that the realization of
this program will make this possible.
We recommend that all pastors co-
operate in the holding of the county mass
meetings in order that this program and
the fellowship of its service may be
brought to all local churches.

We urge that every minister sym-
pathetically study this movement and
humbly and earnestly pray that God may
guide in all things and give us the grace
to follow where He leads.

Leonard Wood's Life

Here is Leonard Wood's life outlined
in brief:

Born, October 6, 1860; Winchester,
N. H.
Lived in boyhood on Cape Cod,
Mass.

Graduated from Harvard Medical
school, 1884.

Worked among poor of Boston as
hospital doctor.

Appointed army surgeon in 1885,
served a few days in Boston and then
was transferred to Mexican border on
his request "for action."

Fought for many months the savage
Apaches who harried the border and
successfully blocked the approach of
civilization. Years later awarded Con-
gressional Medal of Honor for his
heroism in the Indian warfare.

In 1888 he surveyed Arizona under
General Miles.

Ordered back to active service on
border for a few months.

Made staff surgeon, in 1889, and sta-
tioned at Los Angeles.

Married Miss Louise A. Condit
Smith, niece of Chief Justice Field.

Sent to Washington in 1895 as as-
sistant attending surgeon, and served
under Cleveland and McKinley.

Organized Rough Riders in 1898;
made colonel, with Theodore Roose-
velt as lieutenant colonel.

Lead his troops in first battle at Las
Guasimas, June 24, 1898.

Entered Santiago July 17, and was
promoted for valor to brigadier gen-
eral.

Made military governor of Santiago
July 20, and turned city from pest-
house to modern municipality.

President McKinley appointed him
governor general of Cuba, in Decem-
ber, 1899. In next three years he
brought Cuba out of darkness and es-
tablished it as a modern, law-abiding,
self-governing nation.

Sent by Roosevelt to Germany in
1902 as military observer.

Appointed governor of the savage
Moro province in the Philippines, in
1903, by President Roosevelt.

Went with his men to the front lines,
fought fanatic tribesmen, established
government and civilization, and in
three years redeemed another "lost
land."

Made commander in chief of Ameri-
can forces in Philippines in 1905.

In 1903 transferred to United States
and made commander of the depart-
ment of the east.

Sent as special ambassador to
Argentina republic.

Four years headed American mili-
tary forces as chief of staff.

In 1914 again made commander of
the department of the east.

Became premier leader in prepared-
ness in United States by establishing
training camps in 1914, 1915 and 1916.
Thousands of men trained under his
direction to become officers on call.

Transferred in 1917 to department
of south, request for overseas duty
having been ignored.

August 26 began training of crack
Eighty-ninth division at Camp Fun-
ston, Kansas.

Sent to Europe in December as mili-
tary observer.

Wounded by bursting gun; three
weeks in hospital.

Returned and resumed command of
Eighty-ninth division April 12, 1918.

Eighty-ninth went overseas; Wood
ordered to stay at Funston and start
training Tenth division.

Foreign officers pronounced Tenth
best division ever when it was ready
to go overseas just before armistice,
November, 1918.

Made commander of central depart-
ment and organized forces to care for
returning soldiers throughout central
states.

ROOSEVELT FOR WOOD

Theodore, Jr., Lauds His Administra-
tive Ability.

New York.—Theodore Roosevelt,
Jr., member of the New York assembly,
has issued a statement formally
announcing that he will support to the
utmost the candidacy of Leonard
Wood for presidential nominee on the
Republican ticket.

"It gives me great pleasure to endorse
the candidacy of General Wood," he
says. "He is a man of fearless dis-
position and strikes out boldly for
what he considers right. He is a
man of proven experience as an ad-
ministrator. He has demonstrated
this ability in Cuba and the Philip-
pines.

"He has thought out on liberal and
constructive lines the great economic
problems we will meet in this country
in the coming decade. Under him I
feel confident that the country will
work forward to a very increasing in-
fluence and stability."

LEADER JOINS WOOD

Speech of Opponent Turns Dakotan's
Beliefs.

Aberdeen, S. D.—State Senator H.
P. Hill, one of the most well-known
Republicans in South Dakota, has an-
nounced he will support Leonard
Wood for presidential nominee.

"I was originally for Governor Low-
den of Illinois," Hill explained, "but
after hearing him speak at Mitchell
the other day I have decided that
Wood is a much stronger man, from
every standpoint, for president of this
nation. We need an administrator,
a man capable of gigantic organiza-
tion, and I believe Leonard Wood's tre-
mendous governmental experience
makes him the logical choice of all
now in the field."

Can A Million Motorists Be Wrong?

Endorsement of a tire by one
hundred motorists would prove
nothing.

Endorsement by a thousand
would prove little, but when a
million motorists, scores of great
corporations and three thousand
dealers like ourselves say that
Horse-Shoe tires actually cost
less per mile of service, their
collective endorsement carries
tremendous weight.

If this is the kind of a tire you
would like to drive we should
like to tell you more about it.

No Worms in a Healthy Child

All children troubled with worms have an un-
healthy color, which indicates poor blood, and as a
rule, there is more or less stomach disturbance.
GROVE'S TASTELESS CHILL TONIC given regularly
for two or three weeks will enrich the blood, im-
prove the digestion, and act as a General Strength-
ening Tonic to the whole system. Nature will then
throw off or dispel the worms, and the child will be
in perfect health. Pleasant to take. 60c per bottle.

John Frerichs returned Wednesday from a trip to College Station, where he went in response to information that his son, Willie, a student at A. & M., was somewhat indisposed. Willie fell a victim to the "flu", and suffered a relapse on account of leaving the hospital too soon but we are pleased to say that he had so far recovered as to be able to leave the hospital before his father reached the college, and is again enjoying his normal health. Mr. Frerichs was greatly impressed with the magnitude of A. & M., the splendid buildings and the elegantly kept grounds, in all of which he says the State should feel a just pride. He says he saw some of the prettiest and finest cattle he ever saw, but says he was told some of their best cattle were not in the herd; says the conduct of the school is under the control of a fine body of men and is doing fine work. He says he saw all the Hondo boys and they were all in good health and are happy, and seemed to be enjoying school life. Speaking of farming operations along the route covered by his trip he says all farm work was behind, no corn up, and the country apparently in need of rain. He enjoyed his trip immensely but, of course, is pleased to be back at home in old Medina, the peer of any section of Uncle Sam's homestead.

WOOD STRENGTH GAINING RAPIDLY

Choice of People Everywhere as
G. O. P. Nominee,
Polls Show.

Chicago, Ill.—Wood sentiment is sweeping America, according to reports from every state in the Union received at the headquarters of the Leonard Wood national campaign committee here.

Considered of particular importance is the fact that straw ballots and newspaper polls taken in every state indicate almost unanimously that if the Republican voters of the country have their choice, Leonard Wood will be the party's candidate. In almost every one of these polls he is leading by 2 to 1, and in most cases has as many votes as all other candidates put together.

This fact is particularly important considering the fact that more than half the delegates to the national convention in Chicago June 8 will be sent by direct vote of the people, expressed in primary elections. A total of 486 delegates out of 984 to be seated, will be elected by primaries. Some of these delegates will be uninstructed, but in almost every state, if the voice of the people is to be heeded, the delegates will have leanings toward Wood's candidacy.

Many Primaries Soon.

For the benefit of political students and voters in general, herewith is printed the list of primary states and the dates of their elections, together with the number of delegates: California, 26 delegates, May 4; Illinois, 58, April 13; Massachusetts, 35, April 27; Montana, 8, April 23; Nebraska, 16, April 20; New Hampshire, 8, March 9; New Jersey, 28, April 1; New York, 88, April 6; North Dakota, 10, March 16; Ohio, 48, April 27; Oregon, 10, May 21; Pennsylvania, 76, May 18; South Dakota, 10, March 23; Texas, 23, April 25; West Virginia, 16, May 25; and Wisconsin, 26, April 6.

New Hampshire comes first and its eight delegates, to be elected March 9, are absolutely certain to be for Wood. New Hampshire always has had a warm spot in her heart for Wood, for it is the state where he was born, although he lived there but a short time.

Then comes North Dakota, March 16, and South Dakota March 23, with ten votes each. These states are regarded as highly important, from a campaign standpoint.

It is expected that the only real opposition that Wood will have in South Dakota is from the forces backing Gov. Frank Lowden of Illinois, manufacturer and capitalist, who married the daughter of the Pullman Croesus. Thousands of dollars are being poured into the Dakota battle against Wood, but every day Wood's committee is discovering new strength for him there.

Leads in Minnesota.

A peculiarly good indication of Wood strength comes from Minnesota. The St. Paul Pioneer Press, one of the leading newspapers of the country, took a careful, systematic poll by letter of editors, legislators and leading politicians who are supposed to be in close touch with the pulse of the people at all times.

It proved that of 373 leaders questioned, 201 were for Leonard Wood. Lowden was next with only 59; Johnson third with 46. Taft got 25, Hughes 20, Hoover 12, Frazier of North Dakota 3 and Harding, Poindexter, Goethels, Kellogg, Root, Capper and Governor Smith of New York 1 each. It is interesting that Hoover led the Democratic side with 55. Wilson had 31, Bryan 19 and Palmer 10.

If popular sentiment has any say Wood will be the next president of the United States.

INDIANA IS FIRM

Politicians Can't Deliver It to Presidential Candidate.

Indianapolis, Ind.—No politician or group of politicians can deliver Indiana to any candidate for the Republican nomination for the presidency, Frederick A. Joss, national vice chairman of the Leonard Wood campaign committee, declared here as he left for Chicago to assume his new duties.

"I am prompted to make this statement by newspaper reports that Indiana members of the house and senate have declared the state's delegates eventually will vote for one of the political stable, Lowden or Harding," he declared. "I hope these reports are incorrect for no delegate will be so foolish as to ignore the overwhelming mandate which the presidential primary of May 4 will dictate for Leonard Wood.

"Indiana is almost solidly for Wood and every delegate will be for him."

E. corner of said Survey No. 103; Thence West with the North line of said Survey, 1147 varas to a stake from which a mesquite 6 in. in dia. brs. 5 varas North, another mesquite W. 5 varas; Thence South 490½ varas to a stake; Thence East 1147 varas to a stake; Thence North 490½ varas to the place of beginning; That plaintiffs are lawfully seized and possessed of said land, holding and claiming the same in fee simple by virtue of a patent from the State of Texas to Henry Castro, dated January 2, 1862, Patent No. 1, Vol. 36—and by deeds from those holding under and by virtue of said patent; Plaintiffs further represent to the Court that on or about the 21st day of August, A. D. 1897, J. Paul Oefinger and wife, Sophia Oefinger, did execute and deliver to Charles Martin, now deceased, the father of plaintiffs, a deed, conveying to the said Charles Martin the aforesaid 100 acres of land, which said deed was duly filed for record in Medina County, Texas, where said land is situated, on or about the 21st day of August, A. D. 1897; that on or about the 1st day of August, A. D. 1907, the said Chas. Martin died; and that on or about the 7th day of November, A. D. 1908, a decree of partition among the heirs of the said Chas. Martin, deceased, and the widow of the said Chas. Martin, deceased, was rendered in the District Court of Medina County, Texas, wherein the aforesaid 100 acres was set aside and allotted to these plaintiffs; that since the 21st day of August, A. D. 1897, the said Chas. Martin, his heirs and legal representatives and these plaintiffs have had actual peaceable and adverse possession of said land, cultivating, using and enjoying the same, claiming under the aforesaid deed, and judgment, duly registered, paying all taxes due thereon, for more than five years prior to the institution of this suit; and that if defendants, or any of them had any right, title or claim to the aforesaid land, their cause of action against plaintiffs or their father, the said Chas. Martin, accrued more than five years prior to the institution of this suit, therefore the same is barred by the statute of limitation of five years; Plaintiffs further represent that their father, the said Chas. Martin, now deceased, and themselves, have had actual, peaceable and adverse possession of said land, cultivating, using and enjoying the same since the 21st day of August, A. D. 1897, and for more than ten years prior to the institution of this suit, and that if the defendants, or any of them, had any right, title or claim to said land, the cause of action for same accrued more than ten years prior to the institution of this suit, therefore the same is barred by the Statute of limitation of ten years; Plaintiffs bring this suit for the purpose of determining the estate, interest or claim, if any, that said defendants, or any of them, have in and to the aforesaid land, and to decree that title to said land to be in plaintiffs free and clear of all right, title, claim or interest which defendants, or any of them, may have in and to said land and premises; Plaintiffs pray that the defendants be cited by publication as required by law in such cases, and that upon a final hearing in the case that plaintiffs do have and recover of and from said defendants the land and premises aforesaid, and that said decree and judgment declare and adjudicate the title to said land to be in plaintiffs, free and clear of all claim, right, title or interest of defendants, or any of them; and that the Court do issue its appropriate order to carry such decree and judgment into effect, and plaintiffs pray for such other and further orders, judgments and decrees, legal or equitable, to which they may be justly entitled.

AMERICANS ASKED
TO STAY AT HOME

SIGHTSEERS SHOULD KEEP OUT
OF EUROPE UNTIL PEOPLE
GET ON FEET AGAIN.

BAPTISTS ENLARGE WORK

Mission Secretary Will Recommend
How Evangelistic, Educational and
Benevolent Program Can
Be Carried Out.

Americans should keep out of Eu-
rope, unless they have important busi-
ness there, until Europeans have had
an opportunity to get on their feet
again, declares Dr. J. F. Love, sec-
retary of the Foreign Mission Board of
the Southern Baptist Convention.

Dr. Love, as chairman of a commis-
sion named by the Baptist 75 Million
Campaign to visit Europe and make a
survey of the mission fields there, has
just returned from a five-months' tour
of the continent. He says Americans
have distributed cash with such a lav-
ish hand in many places on the conti-
nent that the people have become con-
vinced that Every American has money
to throw away and as soon as they
spot a citizen from this country they
proceed to overcharge him for every-
thing he buys and every service ren-
dered. Unless Americans forego
sightseeing in Europe for a few years
a lot of natives there will become
professional beggars in Dr. Love's
opinion.

Baptists Suffered Heavily.

Along with the other religious de-
nominations Baptists suffered heavy
losses of property in Europe during the
war, Dr. Love reports, but he found
that such Baptists as survived the war
remained loyal to their convictions and
they are now ready to welcome the
aid and co-operation of American Bapt-
ists in the rehabilitation of their coun-
tries and the propagation of the gospel.

From the contact formed with the
Baptists of the chief countries of Eu-
rope by these representatives of the
Southern Baptist Convention, Dr. Love
believes there will ultimately be
formed a cooperative alignment of the
Baptists of the world that will make
them larger factors in world evangeli-
zation than they have ever been be-
fore.

Carry on Relief Work.

While the program which Southern
Baptists will carry on in the European
countries which they have not occu-
pied before will not be determined un-
til after the commission has reported
to the Foreign Mission Board members
of the commission found crying need
for money with which to meet cases
demanding immediate relief and cabled
some for funds to be employed in this
connection in northern France and
Belgium. This money was promptly
forwarded and has been distributed
through an agency set up in Paris in
conjunction with the Foreign Mission-
ary Society of the Northern Baptist
Convention. Prior to the visit of this
commission, missionary work by South-
ern Baptists in Europe has been con-
fined to Italy and Bohemia. However,
the commission visited England, Scot-
land, France, Belgium, Holland and
Italy, but found it impossible to get
into Czechoslovakia, the Balkans and
Russia at this time.

Palestine and Egypt Visited.

After the tour of Europe had been
completed, the commission, which in-
cluded Dr. Z. T. Cody, editor of the
Baptist Courier, of Greenville, S. C.,
and Dr. Everett Gill, formerly mission-
ary to Italy, but now a pastor in Kan-
sas City, went to Palestine to look into
the missionary work there, formerly
done by the Baptists of Southern Illi-
nois, but recently taken over by the
Foreign Mission Board of the Southern
Baptist Convention. A trip into Egypt
for the purpose of studying the Moham-
medan situation was made by the party
while awaiting a ship on which to re-
turn to Italy. So far, Christianity has
made very little head on Mohammed-
anism anywhere. Dr. Love found,
though some of the missionary agen-
cies in Palestine have been established
for more than a half-century. He
anticipates a better chance for the
Christian religion there, following British
occupation of that country.

Establish Orphanage in Rome.

By reason of the liberal response
from the native Christians in the vari-
ous mission fields to the 75 Million
Campaign, many improvements on
those fields have been made possible.
Among the enlargements already pro-
vided for are an orphanage in Rome,
the addition of a girls' department at
Rio College in Brazil, and land for a
girls' school at Sao Paulo, Brazil.

The Interior China Mission was
asked for \$7,500 for the campaign, and
the missionaries there subscribed this
alone, while the native converts added
\$4,500. The North China Mission has
subscribed \$50,000, while Brazil will
respond with nearly \$1,000,000. In
South Brazil the campaign as it was
carried on in the South, was duplicated
with all the special days and other ex-
traordinary efforts and the response is
far beyond the anticipations of the
Foreign Mission Board. In Argentina,
the quota asked was \$75,000, while the
returns from that country have already
reached \$125,000.

Miss Cantril Declares Tanlac
Is Best Medicine She
Ever Heard Of.

"I am simply delighted over my won-
derful improvement since I began tak-
ing Tanlac," was the enthusiastic
statement made by Miss Louise Can-
tril, popular music teacher of 8405 Elm
street, Los Angeles, Cal.

"For as long as I can remember my
kidneys troubled me and I rarely ever
got a good night's rest," she contin-
ued. "I lost my appetite completely
and what I managed to swallow by
sheer force of will would ferment and
cause so much gas that my heart would
palpitate terribly and at times I came
near fainting. I fell off from one hun-
dred and twenty pounds to ninety-
eight and was so nervous and weak I
had to give up my work."

"Medicines and treatments did not
do me a bit of good and I lost faith in
them. A friend of mine kept insisting
that I try Tanlac and to please her I
did. Now I can't thank her enough,
for the way Tanlac helped me is noth-
ing short of remarkable. My appetite
came right back and I eat anything I
want without the slightest trouble.
My kidneys seem to be in perfect shape
and I sleep all night long like a child.
I have gained so much in weight and
strength and am so happy I don't hesi-
tate to say Tanlac is the best medicine
I ever heard of."

Tanlac is sold in Hondo by W. H.

Courand and Co.; and in Dunlay by

Barber Shop.

Some hotel! Everything at cost, and done with the very finest equip-
ment. Join the Navy, and forget the tips.

Can you imagine a first class shave for a nickel, a hair cut for a dime
and a massage, shampoo, and all the trimmings in proportion?

It's almost luxurious, and now that the electric potato peelers have come
in, Jack finds himself with a lot more time to improve himself. He doesn't
need to wash his own clothes any more either, an electric laundry will take
care of them at a price which is almost ridiculous.

This view of the busy barber shop on board one of the U. S. dread-
naughts will give us all some idea of the way the men in the Navy live.
Only the best is good enough for our sailors.

Why Colds Are Dangerous.

You are often told to "beware of a
cold," but why? We will tell you:
Every cold weakens the lungs, lowers
the vitality and paves the way for the
more serious diseases. People who
contract pneumonia first take cold.
The longer a cold hangs on, the greater
the danger, especially from the germ
diseases, as a cold prepares the system
for the reception and development of
the germs of consumption, diphtheria,
scarlet fever and whooping cough. The
quicker you get rid of your cold, the
less the danger of contracting one of
these diseases. Chamberlain's Cough

GOV.-GENERAL OF PHILIPPINES FOR FREEDOM

Declares It Not Right That Freedom Should Longer Be Withheld.

By FRANCIS BURTON HARRISON,
Governor-General of the Philippines.
(First Article.)

My six years' experience as governor-general of the Philippine Islands have convinced me that the Filipino people are ready and fit to have their independence. I have recommended to Congress, as well as to the executive administration, that independence be granted.

As to the question of the stability of government, I wish to say to the American people upon my responsibility as the governor-general that in my opinion there exists today in the Philippine Islands a stable government, which I think should answer the requirements laid down by Presidents Grant and McKinley, and as I understand it, also by Mr. Root—namely, a government elected by the suffrage of the people, which is supported by the people, which is capable of maintaining order and of fulfilling its international obligations.

I am very glad to go on record as being entirely in sympathy with the aspirations of the Filipino nation for independence.

I have recommended to Congress that in granting independence some provision be made similar to what is known as the Platt amendment in the treaty with Cuba, which restricts the ability of the new republic in borrowing of foreign governments and also permits the United States to interfere with the affairs of the new republic in case conditions of disorder should be found to prevail. Such recommendation does not come as an expression of the views of the Filipinos; it is my own view of what would be desirable to secure a feeling of confidence and satisfaction on the part of all persons who have already invested money in the Philippines or who contemplate doing so in the near future.

But it is not right that independence itself should longer be delayed.

By temperament, by experience, by financial ability, in every way, the 11,000,000 Filipinos are entitled to be free from every government except of their own choice. They are intelligent enough to decide for themselves.

I have found the native Filipino official to be honest, efficient and as capable of administering executive positions as any men I have met anywhere in the world.

These officials are today governing 1,000 municipalities and forty-two provinces, economically, efficiently and for the good of the entire people. They have a native congress, including many graduates of Yale, Princeton, Harvard and other American universities. Other members are graduates of Santo Tomas and other Philippine universities, and in education and ability they compare favorably with any I know.

They have leaders like Speaker Osmeña of the House of Representatives and President Quezon of the Senate who would adorn any office.

The Philippines are away ahead of the United States in successful government ownership and operation of public utilities.

The government took hold of the steam railways and made them pay a profit of 1,000,000 pesos a year more than under private ownership.

It took hold of the highways, and we have 7,000 miles of the best macadamized roads in the world. The Manila city government is about to take over the street railways and the gas and electric plants, while the territorial government is arranging for ownership and control of the coal supply.

The movement for independence is a peaceful one. No territory was more loyal to Uncle Sam during the war. It offered an armed and equipped division to our government, gave it a submarine destroyer and oversubscribed Liberty loans and Red Cross funds.

Two million natives speak English fluently, and there are 700,000 English speaking children in the public schools. I am more than willing to retire if the Filipinos can be granted what they deserve—a government like that of the United States.

A MISREPRESENTED RACE.

The Filipino people are a much misrepresented race. The frequent publication of pictures of semi-naked Mindanao Moros and Igorotes has caused a great many Americans to believe they are typical of the inhabitants of the Philippines. Such is far from the case, however. Of 11,000,000 inhabitants of the islands, 10,500,000 are a Christian, civilized people with a culture and refinement that will compare very favorably with that of other nations. The Filipino women are exceptionally modest. A street flirtation in Manila, so far as a Filipino woman is concerned, is something that is almost unknown, as any American that has visited Manila will testify.

LIBRARIANS JOIN FIGHT ON UNREST

American Library Association Inaugurates Nation-wide "Books for Everybody!" Movement.

WILL AID FOREIGN BORN.

Social Problems Can Be Solved by Teaching American Ideals and Traditions.

The spirit of unrest that has been sweeping the country indicates that the foreign born, who have flocked to the United States from every corner of the globe have not been given the proper help and encouragement, in the opinion of the 4,000 librarians who make up the American Library Association and who are now enlisted in a "Books for Everybody!" movement. The effort is a concerted movement to carry out the Enlarged Program which the association has adopted.

There are approximately fifteen millions of foreign born in the United States and of this number six millions do not read or speak the English language. One phase of the Enlarged Program will be to bring the publisher and translator together with the view of furnishing the proper books in sufficient numbers to carry the message of American ideals and traditions to this vast army of uninformed people. They have been largely dependent upon the foreign press for their written messages. Many men who live with their fingers on the pulse of current events are firmly convinced that a sound foundation in Americanism can be easily built among the foreign born if the proper literature is placed within their reach in a language they can understand.

No Drive to Be Held.

In order to carry out the Enlarged Program two million dollars will be required. This money will not be sought through the medium of a campaign or an intensive drive, but will be obtained through the individual efforts of the librarians, library trustees and friends of libraries. The American Library Association will bend every effort to bring about the nationwide adoption of each of the cardinal points in the Program, which includes the extension of the county library system and the establishment of more industrial and business libraries. It now has in operation book service to the United States Merchant Marine, Coast Guard, Lighthouse Service and hospitals of the United States Public Health Service. The needs of the 75,000 blind persons in the United States will be cared for. At present the number of books available is woefully inadequate. This will be remedied and the joys of good literature will be brought into lives that are darkened by a veil which will never be raised by any other method.

Not all the work of Americanization lies in the great centers of population. Great sections of the country where industry is carried on by foreign workers do not know public library service. There are important mining states where less than a score of libraries exist. One mining state has but two public libraries.

MORE BOOKS FOR BLIND.

American Library Association Behind Movement to Bring Good Literature to Those Who Walk in the Dark.

There are between 75,000 and 80,000 blind people in the United States. The supply of books in the recently adopted uniform Braille type for their use is inadequate, there being less than 100 titles existing in that print. The American Library Association has included in the projects of its Enlarged Program the resolve to aid in printing and distributing additional volumes. It has already succeeded in inducing several well-known authors to finance the brailleing of one or more of their books. In inaugurating its "Books for Everybody!" movement a fund of \$2,000,000 will be raised to carry out the provisions of the Program, the money to be obtained not by a campaign or drive, but through the efforts of the librarians, library trustees and friends of libraries.

INCOME TAX RETURNS DUE

Business Men, Farmers and Wage Workers Must File Schedules of Income for 1919.

MARCH 15 LAST FILING DATE.

Net Incomes of \$1,000 or Over, if Single; or \$2,000 or Over if Married, Must Be Reported.

The Income Tax imposed by Act of Congress on earnings of the year 1919 is now being collected.

Returns under oath must be made on or before March 15 by every citizen and resident who had a net income for 1919 amounting to:

\$1,000 or over, if single; or if married and living apart from wife (or husband); or if widowed or divorced.

\$2,000 or over, if married and living with wife (or husband).

The status of the person on the last day of the year fixes the status for the year with respect to the above requirements.

Under any of these circumstances a return must be made, even though no tax is due.

Husband and wife must consider the income of both, plus that of dependent minor children, in meeting this requirement; and, if sufficient to require a return, all items must be shown in a joint return or in separate returns of husband and wife.

A single person with minor dependents must include the income of such dependents.

A minor who has a net income of \$1,000 or more is not considered a dependent, and must file a separate return.

Personal returns should be made on Form 1040A, unless the net income exceeded \$5,000, in which case Form 1040 should be used.

Residents of Texas should file their returns with, and make payments of Income Tax to, Alexander S. Walker, Collector of Internal Revenue, Austin, Tex.

How to Figure Income.

The best way to find out whether one must file a return is to get a Form 1040A and follow the instructions printed on it. That form will serve as a reminder of every item of income, and if a return is due it tells how to prepare and file it.

If in doubt on any point as to income or deductions, a person may secure free advice and aid from the nearest Internal Revenue office.

Guesswork, estimates and other hit-or-miss methods are barred when a person is making out his Income Tax return. Accuracy and completeness must be insisted upon. The return is a sworn statement. As such it must be thorough and accurate.

Salaried persons and wage earners must ascertain the actual compensation received. Overtime, bonuses, shares in the profits of a business, value of quarters and board furnished by the employer and other items which are compensations for services must be included.

It must be borne in mind that compensation may be paid in other forms than in cash. A bonus paid in Liberty Bonds is taxable at the market value of the bonds. A note received in payment for services is taxable income at its face value, and the interest upon it is also taxable.

Other Returns Due.

Every partnership doing business in the United States must file a return on Form 1065; and every personal service corporation must file a similar return.

Corporations must file annual returns on Form 1120.

Trustees, executors, administrators and others acting in a fiduciary capacity are required to file returns. In some cases, Form 1041 is used; in others, Form 1040; and still others, returns on both forms are required.

Information returns, on Forms 1099 and 1060, must be filed by every organization, firm or person who paid, during 1919, an amount of \$1,000 in salary, wages, interest, rent, or other fixed or determinable income to another person, partnership, personal service corporation or fiduciary. These information returns should be forwarded directly to the Commissioner of Internal Revenue (sorting division), Washington, D. C.

SOME FACTS AND FANCIES ABOUT THE PHILIPPINES

There Has Been Much Misrepresentation in America About People and Conditions.

By MAXIMO M. KALAW,
Secretary of the Philippine Mission.

Maximo M. Kalaw.

A certain lady at the St. Louis Exposition saw at a ballroom a brown complexioned man in faultless evening dress and accosted him with the inquiry, "I suppose you are Japanese, sir?"

The man addressed replied, "No, madam." "Then you must be Chinese," she said. "No, I am not. I am a Filipino," he replied. "How's that?" asked the lady. "I thought they were all savages living in the woods."

"Well, I'll tell you how I came here," he said. "A month before I left the Philippines I was living in the woods, but the American Governor decided to catch as many wild men as possible, train them and send them over here. So here I am, just as you see." And the St. Louis lady actually believed him.

That is what you would call fancies about the Philippines. The fact is, however, that the 11,000,000 Filipinos and their ancestors have been civilized and Christians for 300 years; that the non-Christian population, according to the census of 1918, is only 500,000, and even these are not all uncivilized. Another fancy is that not until the coming of the Americans were school buildings seen in the islands, roads built, or substantial houses erected. Do you know that for hundreds of years the Filipinos have had colleges and schools and that the University of Santo Tomas is only twenty-five years older than Harvard? That as early as 1865, out of a population of 4,000,000 people, there were 841 schools for boys and 833 for girls? That in 1892, eight years before the coming of the Americans, there were 2,137 schools?

"To grant self-government to Luzon under Aguinaldo would be like granting self-government to an Apache reservation under some local chief." Thus spoke a former President of the United States during the Filipino-American war. Exaggeration could be an excuse at a time when the dignity of the American people demanded the extinction of Filipino opposition, but do you know that the Philippine Republic, before the American occupation of the islands, had the approval of prominent Americans who were on the spot—like John Barrett, Director of the Pan-American Union, who compared it favorably with the Japanese government? That Admiral Dewey considered the Filipinos better fitted for self-government than the Cubans? That they had drafted a constitution at Malolos which elicited the approval of distinguished Republicans like the late Senator George F. Hoar? That before the coming of the Americans they had produced national heroes like the martyred Jose Rizal, pronounced by a Republican congressman, Representative Cooper, as the noblest victim that has ever fallen into the clutches of tyranny?

And do you know that the Filipinos have not had for hundreds of years any caste system, blood distinction or royal families, and that, unlike their oriental sisters, they are the only Christian people in the orient?

People have pictured an ignorant mass of Filipinos, illiterate, poor, living a life of servitude for a few wealthy land owners and foreigners, with no houses or farms or property of their own. Do you know that 70 per cent of the people above ten years of age can read and write and that this percentage of literacy is almost as high as some of the states of the Union? That it is higher than in any country of South America, higher than the literacy of the Spanish people, and unquestionably above that of any of the new countries recognized in Europe? Do you know that there are a million and a half farms in the Philippines and that 96 per cent of these farms are owned by Filipinos. In other words, that out of the 11,000,000 Christian Filipinos, 8,000,000 of them at least live on their own farms, with houses of their own, independent of any absentee landlord or foreign master? That 91 per cent of the urban property consisting of houses and lands is owned by the natives of the Philippines, and only 9 per cent is in the hands of foreigners? Yet these are facts cabled by Acting Governor Charles Emmett Yeater to the War Department from the recent census estimates.

Having solemnly promised the Filipinos their independence and having gone before the world as the champion of self-determination, the Filipino people cannot understand how America can consistently refuse to make good these promises.

CLIMATE OF THE PHILIPPINES.

The Philippine Islands have a mild tropical climate. The nights are cool and sunstrokes are unknown. The temperature record for the past thirty years shows an average of 80 degrees.

The U. S. S. Wyoming and the U. S. S. New Mexico are shown passing through the Pedro Miguel locks of the Panama Canal. The electric engines along the side of the locks are called "mules" in deference to their four legged predecessors—they have just hauled the ship through the locks. If you are interested in mathematics you figure out how many old style mules it would take to do the job. The Wyoming at the left, is moving out to the lower level, and as the water in the other lock is let out to the correct level the New Mexico will move ahead. This picture was taken from a U. S. Navy flying boat, during the trip of the Pacific Fleet to the West Coast. They were royally received at all of the ports along the trip.
